

Redwood City Schools Curtail Annual Thanksgiving Programs

No Ban: Explanation Of Order

City Mgr. Robert W. Mead claimed here that he was taking no steps aimed at curtailing public knowledge of what was happening in city government groups.

Brought to light yesterday was a memorandum issued by the city manager in which he instructed all city department heads to clear all statements they may have concerning other departments through his office.

In backing his claim that this is not a move to curtail public information, Mead explained that the last paragraph of the memorandum said specifically that: "It is not the intent of these instructions to restrict the issuing of information or activities pertaining to individual departments."

Department heads, he said today, are free to make whatever announcements they choose concerning their own departments but must clear statements concerning other departments.

Reason for the note, said the city manager, was to reduce friction between departments. He claimed that he had evidence that during his term of office so far one department head, jealous of another department, had issued a derogatory statement concerning another city group.

This practice, he concluded, must be stopped.

Clerks Needed, Fox Announces Here

Men are wanted for positions as storekeepers, property and supply clerks, and purchasing clerks, to be sent to Alaska, Hawaii or Panama. It was announced today by Chester B. Fox, local secretary, U. S. Civil Service. Men in 1-A in the draft or who are between the ages of 21 and 28 should not apply. More information may be secured from Fox at the Redwood City post office.

The commonest variety of whale oil is not an oil, but is classified as liquid wax.

New Clerk

RALPH S. DODGE

Appointment

Ralph Dodge Named Clerk

Ralph S. Dodge, district accountant for General Petroleum Corp. and chairman of the South San Mateo County Rationing Board at Redwood City, Monday night was appointed city clerk, treasurer and auditor at a meeting of the Redwood City City Council to replace Clarence W. Eltringham, who has resigned to enter the accountancy business here. Eltringham had held the position since October, 1940, when he succeeded the late B. E. Myers, and was named acting city manager after the death of C. L. Dimmitt in July.

Under the city's charter government, the city manager selects the clerk, the council chooses the treasurer and auditor. City Mgr. Robert W. Mead recommended Dodge as city clerk, the council accepted the recommendation, and upon nomination by Councilman Carl Britschgi, Dodge was chosen treasurer and auditor.

Dodge, whose term becomes effective Monday at 9 a.m., took the oath of office last night with Eltringham administering the oath.

Dodge, who lives at 91 Edgewood Ave., just south of the Redwood City city limits, has a wife and two sons. His son, Howard, is a teacher at Garfield School here, and his son, Stanley, who is in the Royal Air Force, has been reported missing since Sept. 16 in a raid over Germany.

The new city official was born in Redwood City and has lived in this vicinity most of his life. He has been with the General Petroleum Corp. for 17 years. He plans to continue as chairman of the local rationing board, at least for the time being, he said, "as this would be a bad time to make a change, in view of the gas rationing program."

Under charter provisions, Dodge will be under a bond for treasurer of \$75,000; clerk, \$25,000, and auditor, \$10,000. His salary has not been designated, City Manager Mead said today.

Red Cross Starts Accident Drive

Stating that more than 32,000 Americans are killed yearly through accidents in their homes, Gordon Swearingen, director of accident prevention for the San Mateo County chapter, American Red Cross, announced today that a campaign to make people accident-conscious is being carried on through a medium of children in all the schools of the county.

Redwood City and San Mateo County chapters are collaborating to provide 13,000 check-lists, analyzing the seven most common forms of home accidents, to be distributed throughout the schools, and taken home to parents, Swearingen said. Included in these seven categories are: Falls and broken bones; burns and scalds; asphyxiation and suffocation; electric shock; cuts and infection; poisoning; gunshot wounds. Questions under each heading pertain to home conditions which could lead to the different types of accident.

Holiday: Observance In Morning

One of America's oldest traditions, children's Thanksgiving programs, must be curtailed this year in deference to the war effort, according to principals of Redwood City elementary schools. With gasoline ration registration assigned to the schools, the usual observances of Thanksgiving are being held during the morning hours this week or eliminated altogether. Schools will be dismissed next week.

Washington School on Woodside Rd., held its annual program Tuesday, with parents attending. Mrs. Marian Hildebrand directed the program which opened with music by the kindergarten rhythm band, followed by group singing.

Louise Munsey, Ann Martin and Dolores Marcus joined in a reading series. Thanksgiving songs by the first grade, group reading by the second grade and other school songs preceded Frank Ayers' reading, "Something To Be Thankful For."

Joan Kay, Patsy Jones, Patricia Crossfield, Fred Schreiner, Frances Romero, Louis Scalfidi and Tony Triano were heard in readings before 24 children of the fourth and fifth grades sang their Thanksgiving number.

The program closed with the Flag Salute and singing of "America."

MCKINLEY SCHOOL. Miss Bertha Potts, who has charge of the annual holiday program at McKinley School, presented one performance this morning for parents, and will repeat the program tomorrow for school children only.

A play, "Thankful for What?", directed by Miss Potts, includes in its cast Geraldine Peterson, Marianna McKnight, John Clarke, Richard Elliott, Maxine Schulze, Violet Mathews, Robert Smith and Kenneth Chaney, other members of Miss Potts' dramatics class assist with the staging of the play.

Mrs. Ruth N. Lepley, eighth grade teacher, directs two sets of square dancing. Those participating are Valeska Schupp, Winifred Graham, Geraldine Gibbs, Joyce Bevilockway, Rose-line LaFayette, Barbara Fischer, Audrey Massari, Mary Massari, Neil Snow, Tommy Tennant, Bobby Hefner, Harmon Ralston, Burton Canfield, Arthur St. Clair, Jimmy Bozzo and Fred Sommer.

OTHER SCHOOLS.

Although John Gill School does not have room for both gasoline rationing and the usual attendance of parents at a holiday program, the children will have their own entertainment. Principal P. H. Spellenberg said. Mrs. M. A. Reynick has charge of the program for which Franklin Thomas will be announcer. Group singing, a skit, a play, music by the rhythm band, and a group of readings will comprise the entertainment. Terrence McCann, Donald Gorman and Norma Crangle will read.

At central, Lincoln and Garfield Schools Thanksgiving is being observed by discussion in individual classes.

The attitude of the American consumer does not indicate support of any large-scale "black market," according to the Department of Commerce.

TRIBUNE CLASSIFIEDS

Junior Chamber of Commerce: Kenneth Bowen Tells Part Played by Verbal Bombs in Modern U.S. Warfare

Members of the Redwood City Junior Chamber of Commerce last night heard Kenneth L. Bowen, lieutenant (jg), USNR, and former Tribune editor, discuss verbal warfare and the part it can play in winning the peace. Confining his discussion largely to shortwave radio broadcasts, Lieutenant Bowen, a member of the Office of Censorship, said programs sent to cities and countries all over the world are designed to fulfill three main purposes: 1. Building morale and entertaining United States forces overseas; 2. Selling the United States to neutral countries; 3. Firing verbal bombs at enemy nations.

Two principal stations, KWID

and KGE, send most of the shortwave broadcasts from San Francisco, Bowen said. Both stations now are operated by the government. Broadcasts originate either with the Co-ordinator of Inter-American Affairs or the Office of War Information, he pointed out.

Entertainment of U. S. troops, he said, is accomplished through transcriptions of regular radio programs and through some programs originating with one of the two governmental agencies.

Truth is the basic principle of news broadcasts, Bowen emphasized. Although propaganda must be fought with propaganda, he said, the United States prefers to use the truth to combat en-

emy falsehoods. All news broadcasts are translated into 23 languages and dialects so the maximum distribution can be assured.

There is ample evidence that the shortwave broadcasts are heard, Bowen said. The constant reference to them in enemy broadcasts is one concrete example.

Other programs are designed to foster relations between the United States and her allies, the naval lieutenant claimed. One of the most potent weapons of good will is talk of a plan for peace, he said. Final peace is a goal toward which all nations can

work with enthusiasm, he pointed out.

The verbal war is just as important as the war of bullets and must be continued as an effective part of the war program, Bowen said.

"This is a total war," he said. "Everyone is involved. Everyone has something at stake. We must enlist every worker necessary. Our verbal war can be the foundation for a lasting peace."

Other business conducted by the junior chamber included appointment of three committee chairmen: Fred Silvey, Americanism committee; Frank De-lucchi, conservation committee; Larry Irwin, Christmas party committee.

Resignation Of DePatta Is Probable

Price difficulties between Frank A. DePatta, Redwood City salvage campaign chairman, and Uke Popik, Main St. junk dealer, have been ironed out satisfactorily it was announced Monday by Mayor Floyd D. Granger.

Behind the scenes, however, was the probability that DePatta would present his resignation about the first of the year. DePatta admitted that he probably would present his resignation after he makes his final report.

DePatta and Popik were at odds throughout the campaign over the price to be paid for scrap iron and other metal. Granger said today that an agreement had been reached whereby dealers would bid on separate lots of salvage material, with a top price of \$9 per ton.

Popik previously had demanded a showdown before the city council because of certain statements by DePatta. At the defense council meeting Friday Popik in turn demanded an accounting of the funds received by DePatta for scrap salvage sales. All such income has been deposited with First National Bank in Redwood City, DePatta said.

Meanwhile City Manager Robert W. Mead issued a letter to all department heads instructing them that any public statements which they might make concerning two or more departments must be cleared through his office. Mead said statements by DePatta would come under this rule.

Meanwhile the owners of the Broadway lot on which the salvage is stored protested to Mayor Granger that such use was without their knowledge or consent. Mayor Granger informed the owners the scrap iron would be removed as soon as possible.

Johnsons Buy 11 Lots On Third Ave., S.M.

San Mateo County Title Co. today announced that Baywood Properties, Inc., have sold 11 lots on Third Ave. in Baywood, near El Camino Real, San Mateo, to Mr. and Mrs. Samuel F. Johnson. Price indicated by stamps on the deed recorded at the county recorder's office this morning was about \$15,000.

Colorado mines the largest amount of molybdenum, an indispensable metal in manufacture of steel armaments.

Ground Observation: Corps Now Open To Civilians Interested In Defense

Civilians may now join the Ground Observation Corps, Daniel St. George, GOC official, announced today.

The Ground Observation Corps is composed of thousands of civilians who are an active part of the Fourth Fighter Command and the U. S. Army Air Forces. These civilians are supervised by officer and enlisted personnel, and every observer is now being issued a membership card that states that he is a member of the GOC, St. George said. The card is signed by General Kepner, commanding general of the Fourth Fighter Command, and Captain Underwood, regional director of GOC, according to St. George.

"It has been proven that

these civilian observers establish a vital protection against enemy aerial attack," St. George said.

Their flash messages to headquarters by way of army-installed telephone are constantly plotted by experts and every plane that flies across our skies is charted. Any enemy attacker will get a warm reception with bullets because of these observations. Their reports will tell where the enemy is, and in what direction he is traveling.

"Every American citizen owes a good part of his security to these ground observers," St. George continued. "Without them on the job at all hours of the day or night, the defenses of our shores would be weakened. The feeling of security would be lessened and many families would be hastily gathering their belongings to move elsewhere. This would create a labor shortage in many plants where war tools are needed."

"There is a ground post in this area where you can serve your country. The post has been operating efficiently since Dec. 7 and is in a key spot like every other post. It is the duty of every citizen to offer his service."

Fahey Spends \$694 For Campaign

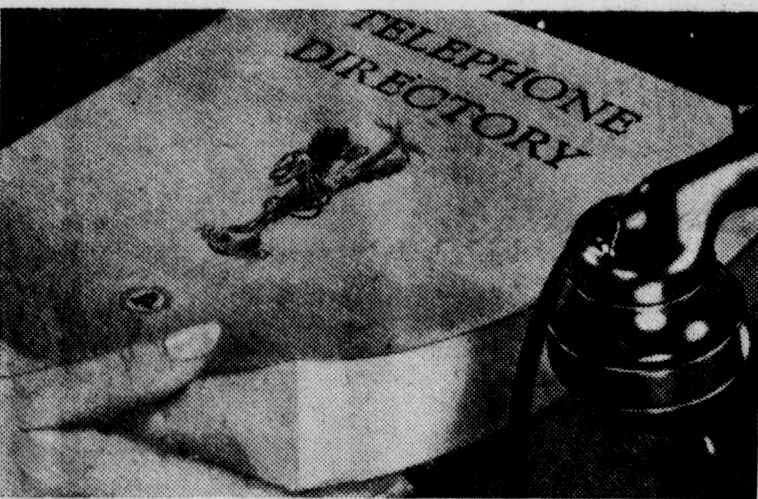

John J. Fahey Jr. spent \$694 in his campaign for election to the office of first district justice of the peace, according to an affidavit on file with County Clerk W. H. Augustus today. Contributions included \$275 from John J. Fahey Sr. and \$15 from R. H. Schubert.

Evacuation Plan To Be Model

San Mateo County's evacuation plan, drafted by the county defense council, was the first approved by the Office of Civilian Defense, the first to be accepted by the Western Defense Command, and it has been forwarded to Washington, D. C. as a model for other counties to follow, it was revealed this week.

Disclosure was made at a meeting of the county board of supervisors in Redwood City in a letter from Hilliard Wilson, executive officer, San Francisco Bay Region Metropolitan Defense Council.

The letter lauded the plan and commended Louis Lengfield, Lawrence A. Barrett, Shaw M. Theller and others who worked on the plan.

Do you keep your Directory near your telephone?

We ask this question because more than two out of five of all calls made to "Information" each day are for numbers which are listed in the telephone directory.

These calls occupy the time of hundreds of trained operators at information switchboards up and down the Pacific Coast. They tie up much vital equipment in these times when our lines are carrying urgent messages for the armed forces ... for war industries ... for defense authorities.

We want to give you fast, dependable telephone service and you can help us by keeping your directory near your telephone and calling "Information" only when you do not find the number listed in the directory.

City Jobs: 12 File For Police

City Mgr. Robert W. Mead has day announced that 12 applications have been filed in answer to his advertisement for additional police officers and that four have applied for a position as secretary.

Applicants will be given civil service examinations next week and successful candidates will be put on file for positions as they are opened.

Mead said that following these examinations one would be given to obtain a skilled mechanic to repair city vehicles and other equipment.

Scout Parade Starts Campaign

SAN CARLOS — Boy Scouts of San Carlos joined the San Mateo County Boy Scout band in a parade through the business section of town Saturday to start a week-long youth agencies' fund drive.

The 40-piece band was directed by Eugene Brose. Following the parade, a war bond and stamp sale was conducted on San Carlos Ave. Bradford P. Datson, assistant executive of the San Mateo Boy Scouts, spoke of the work of the boys and of the campaign. Also present were George A. Cook, chairman of the youth agencies' drive, and Chester Anderson, scout master. The bond sale netted \$374.

The University of Chicago was founded in 1837.

America needs men who can STAY on the job. 90% of lost time in war work industries is due to sickness—not accidents. This work loss will reach a high peak this winter unless all workers strictly adhere to the rules of health.

Look at these figures! In 1941 illness caused a loss of 100 million man-days of work. Upset stomachs were responsible for the loss of 25 million man-days. The common cold caused a loss of 45 million man-days. Eye strain and ailments caused a loss of 35 million man-days.

Take care of yourself OFF the job—at home as well as on the job. Plan and eat nutritionally balanced meals for body strength and energy. Keep your home heated at healthful temperature, neither stuffy hot or goose-pimples chilly. When you use your eyes give them adequate light for restful, comfortable seeing.

Conserve your health. Do your part in the National Health Protection Program this winter.

Redwood City City Council Asks Early Closing of Bars

The Redwood City City Council Monday accepted as the "consensus of opinion of the council" a resolution requesting bars in Redwood City to close at midnight every night except Saturday. The resolution, introduced by Councilman Evans A. Fletcher, requests that bars be closed at 1 a.m. on Sundays.

Fletcher approved of bars and restaurants serving dinners after the suggested closing hours provided intoxicating beverages were not served.

Councilman Harold F. Anderson, who seconded Fletcher's motion to make the request, said he thought it was outrageous that the city should have to spend \$105 in one month to examine drunk drivers. That was the report made by the police department last month.

A proposal of Councilman Fletcher that the financial books of R. F. Martin, proprietor of the Redwood City Bus Lines, be audited was put over to the next meeting of the council, when City Mgr. Robert W. Mead is to report his interpretation of "net profit."

C. G. Uhlenberg, city auditor, reported he had made a preliminary examination of the books and records as maintained by Martin for 10 months ending Oct. 31, 1942.

"The books and records have not been maintained in a satisfactory manner," he reported. "In fact, the records, from an accountant's viewpoint, are more or less in a deplorable condition."

"For the past few months Clark Applegarth of Palo Alto has recorded transactions, and an effort is being made to correct and record the daily transactions in an efficient manner," he said. "No ledger accounts are maintained and the only record of the financial transactions is a so-called cash book which does not appear to balance."

The city previously had advanced \$1800 to Martin to be repaid on the basis of 50 per cent of profits from the bus line. He has already had an extension of 20 days, it was pointed out.

What constitutes net profits was not defined. Uhlenberg stated, Martin has made no payment to the city.

Martin had notified the council he would submit a new bus route schedule soon, and City Atty. Paul A. McCarthy was instructed to advise Martin to present the schedules before the meeting so councilmen could study them. Councilman Anderson suggested that certain places where schedules may be obtained be designated.

The council also: Approved Mayor Floyd D. Granger's appointment of City Manager Mead and Councilman W. W. Hilton to fill the unexpired terms of the late C. L. Dimmitt and ex-Councilman William M. Werder, now a lieutenant (jg) in the navy, on the real estate committee. Councilman George W. McNulty is the third member of the committee.

Referred a letter from the San Mateo County Board of Health requesting an expression in regard to regulations about boarding homes for children as well as for the aged to City Manager Mead.

Announced that a meeting of the Peninsula Division, League of California Cities, will be held in Laurel Hall, San Carlos, Thursday at 6:30 p.m.

On recommendation of Mead, appointed James C. Dodge, local bowling alley owner, to the recreation commission to replace James M. Eva, who resigned when he joined the Red Cross organization working in U. S. Army camps. His term will expire Apr. 12, 1944.

Heard McCarthy's report that the owner of a store on Broadway near Main St. had promised to remove circus posters from his windows and read a letter from Harry Hoefler, president of the Redwood City-San Carlos District Real Estate Board, favoring an amendment to an ordinance prohibiting unsightly posters.

Granted to L. C. Smith, with reluctance, an extension of 20 days to complete installation of a drainage system on Perry St. He has already had an extension of 20 days, it was pointed out.

Planning Group Presents \$2,840,227 Program

Submitted to the San Mateo County Board of Supervisors for approval Tuesday was a six-year \$2,840,227 planned public works program for the post war period. The program, contained in a 29-page booklet, was prepared by the San Mateo County Planning Commission in co-operation with the National Resources Planning Board and Federal Works Agency.

Picturing a post war era when airplanes would play an increasing role in transportation, the program foresaw establishment of a string of self-supporting civilian airports on the Peninsula.

The program would establish \$468,535 in 1943 and 44, but it was predicted the money could be raised within the present tax rate level. No federal aid is

figured in the program, although such aid is expected.

The program lists projects to cost an additional \$6,851,877 as "future projects" beyond the scope of the first six-year plan.

Purpose of the program, according to Ronald Campbell, planning adviser, is to prepare for the program now by building financial reserves, preparing plans and specifications, acquiring sites, and preparing engineering studies. The board of supervisors was asked to adopt the post war public works by announcing its intentions of establishing the financial reserves and ordering plans and specifications for the first two years of the program.

The program is accompanied by a detailed statistical report on the county, its financial structure, tax rates, population growth, revenue, disbursements, assessed valuation, tax rate and

revenue, and financial policy.

Due to the complex tax structure of the county and its 12 cities, only those areas directly under control of the county have been included in the post war public works program, Campbell explained.

Major projects as classified in the program:

Miscellaneous, \$779,400, including completion of Junipero Serra Blvd. and Ocean Shore Hwy., plus an expenditure of \$72,000 on erosion control over the entire six-year period. Included as "future projects" but not listed for financing are airports at San Mateo, San Carlos, Redwood City and Woodside; pedestrian overpasses at El Camino Real at Millbrae, Junipero Serra Blvd. at Millbrae, and El Camino Real at North Fair Oaks.

Road department, \$704,396. The program outlines 16 projects to

be completed over the six-year period, including Middlefield Rd., Alameda de las Pulgas, Millbrae Ave., Canada Rd., Pope St. Bridge, Sand Hill Road Bridge, Redwood City-San Gregorio Rd., Millbrae Ave. Overhead, and others.

Recreation Commission: \$432,619. This would provide for a six-year, \$168,860 improvement to Coyote Point with lesser amounts for Flood Park, Brisbane Lagoon, Millbrae Center, Memorial Park, beach development, etc.

Other projects include \$294,250 for reconstruction of the courthouse at Redwood City in five years; \$84,300 for additional county library branches; \$120,807 for fire breaks, fire roads, a Redwood City headquarters and other items for the fire warden, and \$51,380 for the health and welfare department.

Under co-operative sponsorship, five county sanitary sewer and drainage projects are listed and \$395,000 is set up for preliminary studies, county participation and land acquisition over the six-year period.

"A central plant for the disposal of sanitary sewage and drainage systems to discharge the flow of storm waters from urban sections are among the most vitally needed projects in the county," the report states. "These projects are not properly the responsibility of the general county government since benefits from them will be largely confined to the areas served."

Special districts with agreements between existing county and city governments will be necessary to handle the program, the report states.

The drainage districts, listed as "future projects" to cost \$1,332,750 are the Bayshore, South-east County, Central, Sharp Park and Millbrae areas.

Silk, Nylon Stockings Needed, DePatta Says

Silk or nylon stockings are badly needed for powder bags, Frank A. DePatta, salvage committee chairman, said today. Powder bags must be made of silk or nylon so that the container burns up completely, leaving no ash which might cause premature explosion upon the next loading of a gun. A new method has been developed for reclaiming silk and nylon from old washed stockings, DePatta said.

Many local stores have containers where women can leave old stockings, according to DePatta.

tion of 20 days, it was pointed out.

Instructed Mead to determine water rate for a commercial vegetable garden grower.

Granted permit to National Motor Bearing Co. to hold a dance at Foresters Hall Sunday evening, Dec. 6. The permit was granted only because of wartime conditions, it was pointed out.

Heard Mead report that paint has been ordered to mark parallel parking spaces on Broadway and that lining the spaces probably will start in a few days. Parallel parking was voted by councilmen at their last meeting to take the place of angle parking.

Heard Mead report he had contacted Southern Pacific officials in regard to the parking situation near the depot, and that it was indicated the company would work on a 50-50 basis in a supervised parking plan.

Introduced an ordinance changing the name of Katherine St. to Katherine Ave., and also introduced an amendment to the personnel ordinance, increasing the 90-day temporary employment rule to 180 days, during the war emergency.

Placed a report of negotiations with Emil Dehoff for rent on property at the yacht harbor on the agenda for the next meeting.

Informed Bldg. Insptr. L. M. Duncan to find out the intentions of the new owner of the former Low property on Hilton and Chestnut Sts. The building had been condemned but it has not been torn down.

Fletcher Returns From L.A. Trip

Evans A. Fletcher, Redwood City councilman, returned Monday from Los Angeles, where he attended a convention of the California Insurance Assn. He represented both the Redwood City Insurance Assn. and San Mateo County Insurance Assn. Fletcher also visited friends and relatives during the week-long trip.

Johns-Manville Journal

On the Producing Front—16,000 Strong!

Enough to man 4,000 tanks—and chase Rommel back across the desert! If we had 'em all in one place—all 16,000 Johns-Manville workers.

But they're scattered over forty-eight states—and Canada.

From Johns-Manville plants and offices in California and Louisiana to the J-M asbestos mines in Quebec province, they're busy producing necessary war-time products.

"Make it right! Then make as many as you can," a gray-haired army colonel told J-M plant workers at a War Production Plant.

That's what they're doing, here in your town, and everywhere the J-M symbol decorates a factory gate.

And 16,000 men and 16,000 jobs provide a stabilizing anchor that won't drag or be torn loose by some shift of the battle tide.

It's the kind of anchor that helps communities build for tomorrow.

These 16,000 are helping to preserve quality on the production line—qual-

ity that may be the difference between a "dud" and a smashing blow at the foe!

They're well schooled in quality requirements, are those 16,000, because that's part of J-M training.

Maybe you can't see their whole imprint in one locality, but from the referee's perch high above the nation's producing front, it's plainly visible.

Caught in An 'Alert' at J-M Headquarters!

(Intercepted Letter)
Dear folks—Am gettin' lonesome for Texas, but seein' plenty of New York and learnin' a heap about Rock Wool Home Insulation at Johns-Manville. Saw the big boss himself there—(easier to get into his office than to see old Banker Newt about re-newin' a note.)

Ran smack into an alert raid "alert" in J-M's building—43 stories high, with nigh onto 2,000 folks under one roof—(more 'n we got in all of Culberson county). A siren blew louder'n a coyote, but all I heard was a bell. Everything stopped. Folks poured out of offices, not in a rush though—like when they go to lunch here (man, you ought to see that!)

Everybody headed for one room and I trailed along. It was a room without a window—you couldn't get a peak at the street, or hear anything outside, account o' J-M sound insulation.

Folks in the room went right on working. The others just stood around. Felt a bit squeamish myself, figurin' what a heap of brick 43 stories would make if they fell on you! But then came the tinkle of the bell again—couldn't hear the pesky siren, and there was a chorus of "That's it—all clear! Let's go!" An' in 2 minutes all hands were back on the job. Got to quit now—

Heh. P.S. Saw a neat book on J-M Home Insulation, Ma. Better send for it lots o' pictures! Just write for "COMFORT THAT PAYS FOR ITSELF" at: dress J-M Journal, 25 East 40th St., New York City.

J-M FAMILY ALBUM

HARD TO CRASH—that door to J-M's secret research room; even One-eyed Connolly couldn't make it! But Pierre Van Dyck of Mineral Wool Product Research at Manville, N. J., defies the 'keep-out' sign—but smilingly barred the camera man. The room holds research secrets vital in our war effort.

For Our Boys!

Defense Workshop girls in J-M's New York office have put in long hours cheerfully—not at their desks this time, but in Workshop quarters getting dozens of big boxes in the mails well before November 1 so that former J-M employees from New York now in the service of Uncle Sam will have a taste and sight of Xmas cheer.

The boxes are chuck full, each holding among other items, six packs of cigarets, razor blades, sewing kit, a Xmas card and four kinds of candy.

Thousands of items we haven't room to stock in our store are quickly available through Catalog Department Service.

Broadcast For Servicemen

Leading off with "Hats Off" to the Coast Guard, Fred Waring has turned over the selection of songs for the five-nights-a-week broadcasts of Chesterfield Pleasure Time to our fighting men in the armed forces.

It will be Victory Tune Time on the full coast-to-coast National Broadcasting chain, with one camp in the service featured in each broadcast and with Waring and his 55 Pennsylvanians playing the songs the men vote for as their favorite.

The plan is to have each camp vote for their favorite tunes—and as Waring says in his announcement of the new series, "You okay 'em and I'll play 'em."

Already an enthusiastic response has been received from the camps, and lists of songs are being sent out all over the country from which the men will make their selections.

In inaugurating this series, the makers of Chesterfield make it clear that from now on, the soldiers and sailors, marines and coast guardsmen own the show—and if Waring and his band can help entertain the boys on their way to victory by playing the victory tunes they want to hear—he will be on the job to do it.

City Advertisises For New Firemen

City Mer. Robert W. Mead has advertised for fulltime and call firemen. Starting salary for fulltime firemen will be \$160 a month, plus \$15 a month war bonus. Under an amendment to the personnel ordinance, applicants do not have to be residents of Redwood City, Mead said.

Competitive examinations will be given Nov. 30. Applications must be filed in the personnel office at the city hall on or before 5 p.m. Monday, Nov. 23. Applicants must be able to meet certain physical requirements and be between the ages of 18 and 35 inclusive.

Whittaker Recuperating

BURLINGAME—Lt. James C. Whittaker, co-pilot of Capt. Eddie Rickenbacker on his ill-fated flight and who was rescued last week by the navy from a small Pacific island, was "recuperating nicely" today, according to a radiogram received Tuesday night by his wife in Burlingame.

Mrs. Whittaker and their two children, Shirley and Tom, reside at 306 Lexington Way.

Cleared through the Presidio in San Francisco and filed "somewhere in the Pacific" the radiogram read:

"Recuperating nicely. Will be home soon as physical condition permits. Love to all. In comfortable surroundings. Jim."

The army plane carrying Rickenbacker, Whittaker and six others was forced down at sea Oct. 21 while en route from Hawaii to a small Pacific island.

"Two weeks in a hospital are prescribed for all the survivors," according to wire reports from the War Department, indicating that survivors are in a navy hospital.

Lengfeld Appeals For Housing

HILLSBOROUGH — Louis Lengfeld, newly-appointed executive director of the San Mateo County War Housing Committee, today urged all county residents who possess or know of homes or spare rooms to rent to them with any qualified real estate company.

Lengfeld, appointed Saturday by County Defense Chairman Earl P. Wilsey to head a committee which will conduct a survey of all possible living quarters for war workers in the county, said that his public appeal was intended to begin solving the critical housing problem that an official house-to-house survey later was intended to alleviate.

What You Buy With WAR BONDS

Your purchase of War Bonds will help pay for hundreds of individual field radio sets necessary for radio communications in modern warfare. Field radio is used by advance troops to report enemy placements, to report accuracy of barrage or fire range, and for transmission of important messages.

One of the field radio sets consists of a pack which the soldier carries on his back and by which he can both talk and receive messages. Overall cost of this equipment runs into many thousands of dollars. INVEST AT LEAST TEN PERCENT of your income in War Bonds every payday and become a member of the patriotic Ten Percent Club.

There are 2,000 species of snakes.

Two Highlands Directors Resign

Resignations of John E. Barrickio and Earl C. Palmer as directors of the Highland District Improvement Assn. were accepted with regret at a directors' meeting at the home of H. R. Chapin Monday night.

Barrickio has received a commission in the navy and Palmer resigned because of press of other duties, Chapin said. A special meeting will be held Dec. 7 at the home of Stuart Copps to fill the vacancies and to elect a president and two vice presidents for 1943. There will be no meeting the third Monday in December.

The association voted to purchase reflectors to be placed on a sharp curve on Jefferson Ave. opposite the entrance to the A. D. McBryde residence.

It was reported that the recent scrap drive in the district netted 11½ tons which brought in proceeds of \$66.55. The money is to be turned over to the local chapter of the American Red Cross. A vote of appreciation was given block matrons, of which Mrs. J. M. Houweling is head, for their part in the drive.

ELECTION EXPENSE

Ralph C. MacArthur Burlingame, spent \$656.09 in his successful campaign for the office of county tax collector, according to an affidavit filed today with the county clerk at Redwood City.

Council Relaxes Ordinance Governing Production Of Poultry in Redwood City

The Redwood City City Council today had given official recognition to the meat shortage through passage of an amendment relaxing provisions of an ordinance regulating poultry production within the city limits.

More than an hour of Monday night's three-hour council session was devoted to discussion of the "chicken question." When the arguments pro and con had been completed, councilmen voted a change in the ordinance which will allow many local residents to produce their own poultry or rabbits to augment their meat supplies.

Under the change, chickens may be kept in residential sections "provided no part of the chicken house, coop or runway shall be less than 25 feet from any street nor less than 25 feet from any dwelling or place of business unless such dwelling or place of business is occupied by the person, company or corporation owning or renting the property."

Before the ordinance was changed no chicken house, coop or runway could be less than 40 feet from any street or from any dwelling unless occupied by the person raising the chickens.

The ordinance change applies also to geese, ducks, turkeys, pigeons, doves, squabs or similar fowl, hare or hares, rabbit or rabbits, but does not apply to monkeys, cows, horses or goats. Application to raise chickens or other fowl must be made to the health department, according to the ordinance, and sanitary conditions must be adhered to. No more than 20 chickens shall be permitted on one premise, and no rooster more than four months old shall be permitted within the city.

Councilman Carl Britschgi suggested the proposed amendment, and Councilman Harold F. Anderson moved that it be adopted. It passed unanimously.

"Due to the shortage of meat and other edibles, I feel it to be my duty as a councilman of this city to do my part to help the citizens of this community take an active part in bringing relief to a future critical situation," Britschgi said.

"I feel that with this slight change . . . it will enable our citizens to help ward off this emergency," Britschgi stated. "I

feel that if this is the only sacrifice we will be called upon to make, we may consider ourselves quite fortunate."

Five persons in the audience argued for the change in the ordinance and four persons opposed it. Favoring its passage were J. H. Stubbe, Norman Meyer, Gerald Bedbury, A. E. Lukens and A. S. Kimberly. Speaking against the change were John Nordstrand, Gene Hoffman, Wrex Cruse and J. W. McKeegan.

Stubbe, an official of two state poultry associations, pointed out that poultrymen have admitted they were unable to produce enough chickens. People are not going to have eggs, he said, unless they start raising chickens in their backyards. A short course on how to raise chickens will start at Sequoia Adult School tonight, with Stubbe as instructor. It is the first course of its kind in the state, he said.

Those who opposed the amendment stressed that with the passage, inspections should be made to see that sanitary conditions prevailed.

PREDICTION

County Agricultural Cmsr. Max J. Leonard predicted today that one of the first acts of the County Victory Garden Committee to be organized Nov. 30 would be to ask county and city officials to relax restrictions.

Burlingame Woman Leaves \$15,456.05

Mrs. Glessner G. Henry of Burlingame who died Apr. 6, 1942, left an estate valued at \$15,456.05, according to an appraisal on file in superior court at Redwood City today. Bulk of the estate is Burlingame real estate. Sole heir is Dale Franklin Henry, 9, her son. Mrs. Henry died intestate, according to the petition for letters of administration filed by Dorothy Howat, guardian of the son.

The Boy Scout movement had its beginning in the British Isles in 1908.

Montgomery Ward's Reply to the NATIONAL WAR LABOR BOARD

November 13, 1942

National War Labor Board,
Department of Labor Building,
Washington, D. C.

Gentlemen:

We have the National War Labor Board's order of November 5.* In this order the board demands that Montgomery Ward & Company enter into a contract establishing a form of closed shop called "maintenance of membership," together with a check-off of union dues from wages. Under this form of closed shop, the employees who are members of the union would not be free to resign from the union without being discharged, and Ward's would not be free to retain a competent worker who had resigned from the union. This making of union membership a condition of employment is the essence of the closed shop, whatever form it may take. "Maintenance of membership" is the starting phase which inevitably leads to the full closed shop.

The President of the United States is quoted as having said, on November 14, 1941: "The government of the United States will not order, nor will congress pass legislation ordering, the so-called closed shop." Ward's is in agreement with this statement and believes that the board's order is not in accordance with the President's principles.

Ward's believes that the board's demands not only violate the fundamental principles of liberty but are economically unsound and are illegal under the terms of the National Labor Relations Act.

If the board's order against Ward's is enforced, the pattern will be established by which all unions in all industries can secure a form of closed shop and check-off merely by appealing to the War Labor Board.

The board further ordered a form of compulsory arbitration for Ward's. Ward's is not opposed to voluntary arbitration. However, Ward's management should not, as demanded by the board, abandon responsibilities which have been vested in it by the owners of the corporation, and so surrender to outside arbitrators the final decision on all matters which the union may wish to treat as grievances.

The board further ordered that Ward's guarantee its wages and other working conditions for a one-year period. Ward's believes that a fixed duration of one year is unsound in these uncertain times.

Ward's operates in a highly competitive field composed of one million seven hundred fifty thousand retail establishments. It is unfair to impose burdens upon Ward's and not upon those with whom it is in competition. Ward's efforts to preserve the essential freedoms between itself and its employees have not been prompted by any feeling of anti-unionism. The report of the mediation panel expressly recognizes this fact. Ward's policy has been to obey the law. Ward's has twenty-nine union contracts with both A. F. of L. and C. I. O. unions. Ward's has already given its employees the increases in wages previously recommended by the board. Ward's did this even though its wages were already as high as or higher than those prevailing in the industry and had been increased an average of over 21% since January, 1941. Ward's is willing to include these increases in a contract with the union. There is no issue over wages.

The War Labor Board was created by the President to replace the old Defense Mediation Board. The mediation board was destroyed by the resignation of the union members following the board's vote of nine to two against a closed shop in the captive coal mine case. The War Labor Board, in name only, is composed of representatives of the unions, of industry, and of the public. The union representatives are men chosen for leadership by the union, and have actually protected the interests of the unions. On the other hand, neither industry nor the public have had any voice in the selection of those who presumably represent them. By their decisions, the supposed representatives of industry and of the public have because of inexperience, prejudice or lack of understanding, abandoned the interests of those whom they were appointed to represent.

Under the constitution, congress is the sole law-making authority. If closed shops and compulsory arbitration are to become requirements upon employers, it is congress and not the War Labor Board which should make them so. Congress has not empowered the board to order any employer to do any of the things it demands of Ward's.

Accordingly, Ward's rejects the orders of the board. If congress imposes closed shops, compulsory arbitration or contract for a year's duration on employers, or if the President of the United States, as commander-in-chief in time of war, directs that Ward's accept the board's rulings, which we earnestly believe are illegal and uneconomic, we will respectfully obey.

Yours very truly,

MONTGOMERY WARD AND COMPANY

(SIGNED) SEWELL AVERY,
President.

* This order affects Ward's mail order house and store at Chicago.

PG&E Displays Service Flag

The Pacific Gas and Electric Company's local office is displaying proudly its service flag in honor of the company's employees who are now in the country's armed service. Report on November 6th shows a total enrollment in the various military branches of 1558 men, or more than 11 per cent of the total PG&E personnel. Enlistments from the San Jose Division number 62.

More men are being called to the service every day, according to P. M. Downing, vice president and general manager. Several thousand who would be subject to the draft, have been given occupational deferment, as the maintenance of adequate gas and electric supply is essential to production of ships, oil, gasoline, food supplies and other war necessities.

Nearly 5000 PG&E workers, both men and women, are signed up in various civilian defense activities.

Toastmasters Hear Five Speakers

Members of the Redwood City Toastmasters' Club this week heard:

Chester Armstrong explain what happened to him when he asked a colonel's wife to do his washing for him after a corporal had misguidedly and revealed that he had done the washing himself under embarrassing circumstances.

Henry Pahland charge that tin, rubber and tea have been monopolistically controlled; Ross Winchester explain how gas rationing will cut down newspaper deliveries; Guido Brandolini tell how "Americans are selfish"; Dr. William Gordon describe the Rocking Stone Tower at Truckee.

NEW CUBE TRAY

Here's pleasant news if your rubber ice cube tray is no longer usable: You can replace it with a set of plastic cups that fits into a special steel tray. Cups are individual and you may remove one or the entire lot, just as you need them. Also they are transparent and odorless. Simply press the sides of the cup and the ice cube is loosened. Inexpensive, too.

Hopkins Mansion Being Dismantled

Reports that the Timothy Hopkins mansion in Menlo Park would be dismantled and reconstructed again in Hollywood for picture use were emphatically denied this week by Vincent Leat, Universal Pictures' representative in charge of wrecking the famed home.

Leat said Universal had bought both the house and the furnishings, but intended to use only the furnishings for props and picture work. He pointed out that the wood in the Hopkins home was being shipped to Hollywood because it could be used as lumber for general purposes, but that no complete reconstruction of the Hopkins mansion was contemplated.

"We're going to use the wood because lumber is now hard to get," Leat said, "and we want to do the war effort by using as much old material as possible without buying new lumber."

He said that four truck loads of furnishings and lumber had already been shipped to Hollywood, and that the work of wrecking the Hopkins mansion

Servicemen: Menlo Park Sends 31 New Draftees

Thirty-one draftees from Menlo Park were inducted into the army Monday. The inductees, who left for the reception center at Monterey, are:

Raymond Muse, Raymond L. Canadas, Ribello Gauzzi, Glenn H. Kemry, Maury M. Ichelson, Samuel C. Chandler, Leslie R. W. West, Fred Y. Backlund, Dennis A. Gilmer.

Richard Minnis, Louis W. Thompson, Arthur A. Feeley.

Locker Speaks At Exchange Club

J. W. Locker, Redwood City banker who recently volunteered his services with others to aid in the harvest of brussels sprouts on the San Mateo County Coast-side, described his experiences as a volunteer farmer to members of the Redwood City Exchange Club Tuesday. Henry Nissen, newly inducted member of the club, gave a brief autobiography. The club voted to hold its Christmas Party Dec. 15.

The huge python is a docile and easily tamed snake.

R.C. Youth Joins Sigma Delta Chi

Donald A. Allan, of Redwood City, now in his junior year at Stanford University, has been initiated into Sigma Delta Chi, men's national professional journalism fraternity. Allan, who has been active in school journalistic activities, has enlisted in the army air corps and expects to be called up soon.

In 1766 Rhode Island enacted laws "for the preservation of the oyster" to keep coastal beds from being scraped bare.

'Calling Card' For Palo Alto?

PALO ALTO—Did an enemy drop his phosphorus "calling card" on Palo Alto Armistice Day?

If that seems unlikely, what is the explanation of the following well-authenticated incident?

At 11:20 a.m. on the morning of Armistice Day, while planes were seen flying overhead, an object resembling a piece of paper fluttered to the ground and upon hitting the pavement at Embarcadero Rd. and Guinda St. burst into flames. The fire was hot enough to scorch the area.

Mrs. R. B. McClure, an air raid warden, witnessed the strange event.

Charred remains were collected and turned over to police, who, in turn, notified military intelligence authorities.

A maximum speed of 30 miles an hour for motor vehicles of less than two tons has been ordered in Ireland to prevent excessive tire wear, according to the Department of Commerce.

PUBLIC NOTICES

Paul A. McCarthy, Atty.
NOTICE OF SALE OF REAL
ESTATE
No. 10,221

IN THE SUPERIOR COURT OF
THE STATE OF CALIFORNIA,
IN AND FOR THE COUNTY OF
SAN MATEO.

In the Matter of the Estate of AMELIA LEWZEY, Deceased.
NOTICE IS HEREBY GIVEN by AMELIA SHEELE, executrix of the last will of Amelia Giles, also known as Amelia Lewzey, deceased, that she will, as such executrix, sell to the highest bidder at private sale and subject to the confirmation of the Superior Court of the State of California, in and for the County of San Mateo, all of the right, title, interest and estate of the said Amelia Giles, also known as Amelia Lewzey, deceased, at the time of her death, and all of the right, title and interest that the estate of said Amelia Giles, also known as Amelia Lewzey, deceased, has by operation of law or otherwise acquired, other than in addition to that of the decedent at the time of her death, in and to that certain lot, piece or parcel of land situate, lying and being in the County of San Mateo, State of California, and bounded and described as follows, to-wit:

"In the City of Redwood City, said County and State, described as follows:

BEGINNING at a point formed by the intersection of the Westerly line of Lot 5 in Block F of the tract known as Woodside Acres, Map No. 1 as herein-after particularly described, with the Southerly line of Union Avenue; running thence Easterly along said Southerly line of Union Avenue 97.36 feet; thence Southerly and parallel with said Westerly line of said Lot 5—220 feet, more or less, to the Southwesterly line of said Lot 5; thence North 64° 01' West 104 feet, more or less, to the said Westerly line of said Lot 5; thence Northerly along said Westerly line of said Lot 5—192.90 feet to the point of beginning.

BEING the Westerly 97.36 feet of said Lot 5 in Block F as designated on the map entitled, "Woodside Acres Map No. 1 San Mateo County California," which map was filed in the office of the recorder of the County of San Mateo, State of California, on May 18, 1923, in Book 11 of Maps at pages 34 and 35, together with the improvements consisting of a frame dwelling house.

The said sale will be made on or after Monday, the 23rd day of November, 1942, and offers or bids for said property must be in writing, and will be received at the office of the attorney for said

executrix, to-wit: Paul A. McCarthy, 2024 Broadway, Redwood City, California, or may be filed in the office of the Clerk of the Superior Court of the State of California, in and for the County of San Mateo, at any time after the first publication of this notice and before the making of the sale.

Terms of Sale: Cash in lawful money of the United States, ten (10) per cent of the purchase price upon acceptance of bid; balance on confirmation of sale by the Court; or, in the discretion of said executrix, cash to the extent of at least One Thousand Dollars (\$1,000.00), and balance in monthly installments of at least Thirty-five Dollars (\$35.00), including interest on the unpaid balance at Six (6) per cent per annum, said balance being evidenced by promissory note and deed of trust to be executed by such purchaser in favor of said executrix, ten (10) per cent of said purchase price being payable on acceptance of said bid.

Dated: October 30, 1942.

Fire Destroys Veteran's Home

Elias Salvatore, dishwasher at Hassler Health Home, Redwood City, and a 20-year veteran in the U. S. Navy, today had lost all of his worldly goods excepting the clothes on his back as the result of a fire late Tuesday which destroyed his home.

Salvatore and his wife lived in a three-room cabin about one mile east of the San Francisco health establishment. It burned to the ground in a blaze reported at 5:30 p.m. Three county fire trucks from Redwood City arrived too late to save the structure.

In the building, Salvatore said, were his navy discharge, \$150 in war bonds, about \$250 worth of furnishings, and all of his personal effects.

He and his wife came to Redwood City in the afternoon to do some shopping and on their return found their home enveloped in flames, he reported. The cabin, part of the construction camp built for the Pulgas tunnel contract, was valued at approximately \$500 according to Fire Warden Bert L. Werder.

Helium was discovered in the sun in 1868.

RAIN DROPS GIVES SOAP A LIFT

MENLO PARK NEWS

BY D. E. O'KEEFE

Miss Emma Moore, 66, of Rose Ave., passed away at the Palo Alto Hospital last Monday after a brief illness. She had resided in Menlo Park for the past 15 years and was a native of Canada.

Ensign James Flood, USNR, has been called to active duty. His wife and children are established at Woodside. The family just arrived from the East Coast.

The lower floor of the Menlo Park Hotel building is to be occupied by the American Legion, that had used the front hall for some time. The members plan to sponsor entertainments and dances during the winter season. The old dining room in years past, was the scene of numerous and gay parties.

The old Timothy Hopkins mansion is being wrecked by a moving picture concern of Hollywood. Three truckloads of lumber were taken South this week. The owners expect to have the old home removed in about six weeks. It is not known what disposition Stanford University will make of the vast property.

The rainfall as recorded by the rain gauge at the depot is two inches as against 3.10 inches at this time last year.

The theater building that is being remodeled will be opened on Thanksgiving with a splendid program of entertainment. The show house will be one of the most attractive on the Peninsula.

Miss Nancy Carmean of Palo Alto and J. Desmond Sullivan, will be united in marriage this morning at the Church of the Nativity. A cousin of the prospective bride, Father James Murphy of San Francisco, will preside at the nuptials, assisted by Father McKeon. The young couple plan to live at Palo Alto.

Mr. and Mrs. George Sweeney and their pretty daughter, arrived in Menlo Park this week to reside permanently. They formerly lived in Chicago. Mr. Sweeney is a retired lawyer.

Local hunters report fine shooting on the marshes. The storm has brought down a big

E.P.A. To Have Ration Branch

Residents of communities in and near the Ravenswood School District, East Palo Alto, will have their own branch rationing board in a few days.

Arrangements have been made with the Redwood City War Price and Rationing Board for a branch to be set up in the kitchen of the Ravenswood School for service one afternoon and one evening each week. J. H. Stubbe will be local chairman.

Its services will be available to anyone who would save tire mileage by using it instead of going to Redwood City. Beginning Nov. 24 hours will be 1 to 4 p.m. Tuesdays and 7 to 9 p.m. Fridays. Applications for supplemental gasoline rationing should be made to Stubbe, Palo Alto P. O. Box 208, rather than to the Redwood City Board.

A mass meeting will be held at 8 o'clock the night of Nov. 27 in the Ravenswood School auditorium for clarification of ration registration. Questions will be answered.

San Carlos PTA Hears Symposium

SAN CARLOS—A symposium on "How the High School Is Adjusting Itself to Wartime Needs" was presented under the direction of A. C. Argo, superintendent of Sequoia High School, when the San Carlos Parent Teacher Association met Tuesday for its regular monthly meeting.

Also on the program was a short program of piano selections played by Harold Stiller. Hostesses for the afternoon were Mrs. Stewart Barber, chairman, and Mesdames A. M. Bayer, A. L. Boucher, E. C. Burson, William L. Nott, Eugene H. Paul and H. A. Sisson.

To Preside

Mrs. Alice Covey, acting president, will be in charge when the Auxiliary to Cpl. James L. Wilson Post 2310, Veterans of Foreign Wars, meets in Veterans Hall at 8 tonight.

Flight of ducks from the South, principally teal and widgeon. There also are big flocks of geese, gray and white. Hunters look forward to a good season.

County Organizes Council To Control Liquor Problems

SAN MATEO — San Mateo County's co-ordination council to deal with problems pertaining to liquor control and its allied issues, was organized last night at a meeting of county law enforcement agencies in the Benjamin Franklin Hotel, San Mateo. Attending the meeting were representatives of virtually every city in the county, and members of the county's law enforcement staff.

Comr. George R. Reilly, member of the State Board of Equalization, at whose call the meeting was held, named Frank A. Bloom, Burlingame city treasurer, as chairman of the council, Claude Hirschey, vice mayor of San Mateo, was named secretary.

At the same time Commissioner Reilly announced regulations for all liquor establishments in this county effective Dec. 1. The board members offered a five-point program to the liquor operators, and informed them that it had the full approval of the army and the navy.

The program is:
1. All "on sale" establishments

where liquor is sold by the drink, will be opened after Dec. 1 between the hours of 10 a.m. and midnight.

2. "Off-sale" premises, where liquor is sold by the package, will be open from 10 a.m. to 10 p.m. Both types of places to operate from 6 a.m. to 2 a.m., except in restricted areas.

3. Unescorted women will be denied service at the bar at "on-sale" places, and will be served only at tables.

4. No one shall be served liquor in any bar if there are children of tender years present.

5. Known or suspected prostitutes will be barred from all places at all times.

Commissioner Reilly said he is calling upon all liquor establishments in San Mateo County to get these points into effect before Dec. 1, or face drastic action. He pointed out that the military has approved the program and has threatened that if it is not adopted, the military will step in and take even more drastic action on its own accord.

Clarence Hunt Sent to San Quentin

His motion for probation denied, Clarence Hunt, ex-convict from San Jose, was preparing to go to San Quentin today for another stretch behind bars. He was convicted by a jury in superior court Friday, and appeared before Judge Maxwell McNutt yesterday. He was convicted of second degree robbery.

According to the district attorney's office, Hunt has served federal penitentiary terms for violation of the Mann Act and for violation of parole.

He was convicted of robbing Fred Stolz, Sausalito, of \$145 in San Mateo Sept. 17.

Menlo Park Street Under Repair

MENLO PARK — Resurfacing work has begun on Merrill Ave. in front of the railroad station in Menlo Park, Street Comr. William F. Cutter announced today. Workmen are filling chuck holes and resurfacing the road which is greatly used by commuters.

Since the property belongs to the Southern Pacific Railroad,

Barth Suit Transferred Here

Separate maintenance proceedings filed by Mrs. Mae Dean Barth against G. R. Barth, San Mateo food broker, have been referred to superior court at Redwood City from San Francisco. First hearing is scheduled Monday before Judge Maxwell McNutt on a demurrer to a complaint filed in San Francisco Oct. 6.

Mrs. Barth, charging that her husband was guilty of extreme cruelty, obtained a court order in San Francisco tying up her husband's assets. She alleged that he had appropriated all community property.

Barth is a partner in the G. R. Barth Co., San Francisco food products company. He and Mrs. Barth were married in San Francisco Oct. 7, 1933, according to her complaint.

The City of Menlo Park had to be granted an easement before the improvement work could begin. Cutter said preliminary work was completed yesterday.

No matter how scarce tires become they're bound to go around — and around and around.

PENNEY'S Practical Gifts

IS YOUR CHRISTMAS LIST ALL READY?

Perhaps you've even started checking off the presents you've already bought. Many people have. We've never known a year when so many people began their shopping early.

We've found that it's because thrift dictates forethought. Nobody can afford lavish or hasty shopping this year, for we all have War Bonds to buy, and that comes first.

Last-minute, hurry-up buying often means you can't get exactly the gifts you want for the price you want to pay. Sometimes substitutions are necessary, and they may cost more than you had planned to spend.

Here at Penney's we made our Christmas plans early, too—and your Penney store is ready, now, with the practical gifts you want, at the sensible prices you want to pay.

AT SENSIBLE PRICES

Give Smart Comfort with

MEN'S RAYON ROBES \$5.90

Catering to a man's comfort is still the shortest cut to his heart! Finest rayon fabrics, patterned with sleek rayon satin stripes and satin trim on the collar, cuffs, pockets and scsh. Note Penney's expert designing — wide shawl collar, extra length, wide tasselled sash and smart pockets!

MEN'S SLIPPERS \$2.25

He'll rest smartly in kid leather operas.

\$1.29

Solid comfort in glove leather, felt lined!

Socks 3 for \$1.00

Rayons in clocks and stripes!

PENNEY'S TOYLAND FUN FOR EVERYBODY!

BABY DOLL

Soft, cuddly baby, beautifully dressed in crisp organdy frock and a cute bonnet to match! Pretty underthings, too!

19" DOLL \$3.93
22" DOLL \$3.92
24" DOLL \$2.99

Games

Ring Toss 25c
Play Set 49c

Have A Gay Wardrobe This Fall!

WOMEN'S DRESSES \$7.90

Dashing!
Cheerful!

Precisely cut frocks for sports... bold trimmings on bright colors for casual wear... soft tucks or lingerie touches for leisure styles. Choose from our large collection of brand new, smartly inexpensive fall dresses! Sizes 12 to 20.

Lazy Baby Doll \$2.71

Target Game \$1.00

Ducky Daddies 89¢

ON CHRISTMAS DAY IT'S GOOD TO KNOW "IT'S PAID FOR"

One-Third Of Autoists Register

Approximately a third of San Mateo County motorists went to elementary schools yesterday to register for gasoline rationing and to obtain their "A" books, it was disclosed today by a countywide survey.

The "A" books, entitling motorists to four gallons per week, will be available at the schools today and tomorrow.

Service stations and garages reported a last-minute rush by motorists seeking help in learning the serial numbers of their tires, changing good tires for bad, turning in tires in excess of five, some to the federal government and some to the scrap pile.

Comparatively few "D" books, basic ration for motorcycles, were issued.

Greatest activity yesterday was in San Mateo, Redwood City, Burlingame and Daly City, the survey showed.

Yesterday's totals by school district:

	Books	Books
Daly City	950	5
South San	700	2
San Bruno	565	2
Loma Park	120	2
Millbrae	332	2
Burlingame	1444	4
San Mateo	2416	7
Hillsborough	400	5
Belmont	176	1
San Carlos	531	1
Redwood City	1977	3
Menlo Park	727	3
Woodside	136	3
Half Moon Bay	120	3
Ravenswood	398	3

The totals in the school districts contacted showed about 11,000 "A" books rationed yesterday, plus 33 "D" books. It was estimated that the registrations in the smaller school districts scattered throughout the county would bring the total approximately a third of the county's

Lions Club: Cmdr. Sheaf Speaks on Merchant Marine

Cmdr. Ralph M. Sheaf of the U. S. Merchant Marine Cadet Basic School at San Mateo Point outlined the history of the merchant marine and explained activities of the school at a meeting of the Redwood City Lions Club last night.

Commander Sheaf said the maritime service is inviting applications from youths from 18 to 23 years of age for attendance at the school. After a period of training, he said, the cadets will be sent to sea either with the merchant marine or the navy and later will win commissions as ensigns.

Instructors at the school, he

said, all have had a minimum of 10 years' experience and their teaching is sound for modern merchant marine conditions.

The school will be continued after the war is over, Commander Sheaf indicated.

Lions Club members learned at the meeting that four booths to shelter servicemen will be installed this week. Two will be placed at the intersection of El Camino Real and Broadway and two near the intersection of Bayshore Hwy. and Middlefield Rd.

Plans were made at the meeting for a Christmas party and ladies' night to be held Dec. 23.

Married Nurses May Enlist In Nursing Service Reserve

Word has been received by the Redwood City Red Cross Nursing Service that married nurses without dependents may now enroll in the first reserve of the service.

An active campaign—part of the state and national program—is being carried out to enroll every eligible nurse in the county for the first reserve between now and Dec. 7—Pearl Harbor Day.

This does not mean, the Red Cross points out, that every nurse will be released to army or navy service, but is merely a means of knowing where the county's nursing strength is situated in case of need.

"Our nursing leaders must have this information," said Hilda Schneider of the county health department.

To be eligible for the first

reserve, a nurse must not be more than 40 years of age, must be single or married without dependents and must be in excellent physical condition. All army and navy nurses must first be enrolled in the reserve before being called to active duty, but reserve members who fill key positions in the civilian program will be deferred from duty with the armed services.

For further information, nurses may contact one of the following: Mrs. Inez Deem, committee chairman of the Nursing Council for War Service, Eighth Ave., Redwood City; Florence Taylor, superintendent of nurses at Mills Memorial Hospital; Mabel Wilson, superintendent of nurses at Community Hospital; Hilda Schneider, San Mateo County Red Cross Nursing Service, Department of Public Health and Welfare, Redwood City.

46,000 registered motorists. According to Miss Pansy J. Abbott, no difficulties were reported to her office. Some delay was encountered in Burlingame yesterday, but additional registrars were placed on duty today, she said.

Activity was reported rushing at schools which accepted registrations this morning.

Greatest rush in Redwood City schools was at the opening hour, 1:30 p.m., and the same situation continued today. At John Gill School, where PTA members are assisting teachers, 205 "A" books were issued yesterday.

Garfield School experienced a two-hour rush, after which the registrations declined. The school issued 395 "A" books.

Central School issued 287 books, most of them in the afternoon. Motorists were lined up there again this afternoon.

McKinley School issued 412 books yesterday with another long line waiting this afternoon.

Atherton PTA To Sell Quilt At Bazaar

ATHERTON — Las Lomitas Parent Teacher Association hopes to raise money for the major portion of the budget for next year at its annual bazaar.

To be held tomorrow night in the schoolhouse on Alameda de las Pulgas starting at 7:30 o'clock.

The hand-made quilt, made and sold annually by PTA members, this year will feature the dahlia pattern in applique and hand stitching. Four members of the association — Mesdames Robert Carlson, Meta Wolters, Rudolph Gautschi and Carl Sparks—have made 20 quilts for the PTA in the past 14 years. This year a new group of women, directed by Mrs. Holgar Spohr, worked on the quilt.

Besides the usual bazaar features, there will be a program by the school children and dancing.

Legion to Have Theater Party

BELMONT—The Belmont Legion Post 377 and the Women's Peninsula Post from Burlingame will hold a theater party tomorrow at 7:30 p.m. at the Manor Theater in San Mateo.

From 9 to 10 o'clock there will be an amateur show.

The proceeds from the affair will go toward child welfare and rehabilitation work carried on by the legion.

A gasoline and tire conservation regulation restricting cruising of taxicabs in Buenos Aires, Argentina, caused a two weeks taxi strike, the Department of Commerce reports.

Redwood City Industries Agree to Staggered Hours

Representatives of six Redwood City war industry plants who met with city officials, County Planning Engineer Ronald Campbell and R. F. Martin, operator of Redwood City Bus Lines, today provisionally approved a staggered hour system to take effect with gasoline rationing Dec. 1.

Campbell presented statistics to show that transportation would be required for 1861 defense plant employees. Martin proposed a revised bus schedule to provide the transportation.

City Mgr. Robert W. Mead gave general approval to the new schedule, but pointed out that it must be submitted to the city council for a final OK.

The staggered hour plan would spread starting hours from 7:30 to 9 a.m. Campbell said. The day shift would end between 4 and 5 p.m., spreading the present peak 30 minutes.

Final adoption of the plan was left in the hands of plant representatives and Ferris Miles, city transportation committee chairman.

Represented at the meeting were Plant Rubber and Asbestos Co., S.W. Pacific Portland Cement Co., Frank Tannery, National Motor Bearing Co., and Pacific Bridge Co.

Men in Service: W. G. Keller Wins New Promotion with Military Police

W. Gordon Keller, son of Mr. and Mrs. W. A. Keller of 123 Poplar Ave., Redwood City, has been promoted from private first class to corporal technician, according to information received here today.

Corporal Keller is stationed with a military police group at Tulare. He will be in the army two months tomorrow. He is a graduate of Sequoia High School.

'Tojo Cigar' Visits Belmont School

BELMONT — The two-man Japanese submarine captured at Pearl Harbor was on display Tuesday morning from 9 to 9:30 o'clock at the Belmont Grammar School.

About 300 children and adults viewed it. Frank O'Brien, Belmont postmaster, was in charge of the stamp sale, which amounted to \$47, mostly bought by the children. A \$25 bond was also purchased. Because of inclement weather the display in the Southern Pacific yard was cancelled.

SAFEWAY Thanksgiving Guide

ALL STORES CLOSED Thursday November 26th . . . Thanksgiving Day. Shop Early. . . Prices in this ad effective Thursday, Friday, Saturday, Sunday, Monday, Tuesday and Wednesday, November 19, 20, 21, 22, 23, 24 and 25 in San Francisco, Oakland, Berkeley, Alameda, Richmond, Hayward, and other cities and towns in San Mateo, Alameda, and Contra Costa Counties.

You can enjoy Your Thanksgiving Dinner

You will have greater enjoyment from your Thanksgiving dinner if you have been able to prepare it with a few quick twists of the wrist instead of making yourself a holiday slave to the kitchen. Simply use a dough blanket over your turkey—no basting—no watching. Result—a beautiful golden browned bird with no trouble at all!

Method

Brush the cleaned, stuffed and trussed bird with shortening; place securely, breast up in a large flat pan. Prepare stiff dough, using 6 to 8 cups of flour depending on the fowl's size. Add just enough water to form mixture that can be rolled. Knead mixture well; roll out $\frac{1}{2}$ to $\frac{3}{4}$ inch thick and large enough to form a blanket that will drop clear down on either side of the bird. Place over bird (no tucking under, mind you). Be sure to let it hang free and be sure that it covers the bird! Pour 1 cup of water in pan; place immediately in hot oven (450° F.) for 15 minutes to allow blanket to set.

This is absolutely necessary. And don't let the turkey stand with the dough blanket on. If blanket should stretch thin at legs or thigh, take it off and re-roll it. When blanket is set, reduce heat to 350° F. and continue cooking.

So, no basting is necessary, but water must be replenished in pan as needed, keeping about 1 cup in the pan all the time. Remove blanket by cracking with a small hammer about $\frac{1}{2}$ hour before roasting period is through. Be careful not to break skin when removing blanket. Brown uncovered if a deeper color is desired.

For Roasting Time

Turkey generally takes 15 to 25 minutes per pound depending on the way the bird has been fed. The smaller the bird, the longer the time per pound required for roasting. Cook at 325°-350° F.

How to

Carve The Turkey and keep your disposition

Insert fork astride breast bone. Separate thigh . . . sever joint with tip of the knife.

Cut around wing close to fowl and remove . . . same as the thigh and the drumstick.

Then . . . cut thin slices of white meat from breast, cutting downward toward front.

Separate drumstick and thigh at joint. Slice dark meat lengthwise from bone.

CUT OUT AND PRESENT TO THE MAN OF THE HOUSE HE'LL LOVE YOU FOR IT!

(ALL ITEMS IN THIS AD SUBJECT TO HAVING STOCK ON HAND)
